

NEWS UPDATE FROM AIR ASIA

To continue to strive to keep our fares as low as possible, AirAsia believes that guests should be given the option to choose the services they require and pay only for those services. Now, guests are able to choose to pay only for baggage they wish to travel with. Thus, such choice will result in fewer checked baggage that can improve airport efficiency and will eventually lead to shorter check-in queues. Lighter baggage weight onboard the aircraft means burning less fuel, less pollution, a better environment and it will also enable us to keep our basic fares low for all.
